Reviews by participants	Not available	★★★★★ Over 80 reviews The reviews provide key insights regarding the courses' high quality and the value you will gain.

GRI CERTIFIED COURSE

I would like to register

and gain 3-5 learning units needed to take the GRI Certified Sustainability Professional Exam

Why FBRH UK?

- Both GRI Certified courses cover the first three learning modules (out of five) needed to become eligible to take the GRI exam and gain the title "GRI Certified Sustainability Professional" (please contact us for more information).
- The realtime remote learning GRI Certified course is geared for busy professionals who want to understand how to proceed and create a 1st Class GRI Standards Sustainability Report and have a plan for immediate action without wasting time.
- We strive to maintain a cost that is economically viable so we can continue to offer top learning value and teach busy professionals what is needed to prepare a 1st class GRI Standards sustainability report. Please see the course reviews for insights on the value you will gain.
- Knowhow and linkage documens are provided. Deeper knowledge can be gained by completing the GRI Certified "Integrating the SDGs into your reporting process" course. If you would like to complete a trainer-led course (rather than a self-paced one) please contact us.
